More On Integrated Biometrics

Culture is important to Integrated Biometrics and a good “cultural fit” is required for employment. Integrated Biometrics has adopted the Executive Operating System (EOS) approach for the overall foundation of the organization. The EOS concept was initially outlined in the book TRACTION by Gino Wickman. Integrated Biometrics is early in its TRACTION adoption and overall embracing of EOS. Management is committed to EOS and, for 2018, is expanding EOS to all levels of the organization.

MANUFACTURING TEST TECHNICIAN

Who Are Integrated Biometrics?

Integrated Biometrics, LLC designs and manufactures FBI-certified fingerprint sensors for law enforcement, military operations, homeland security, national identity, election validation, social services, and a wide range of commercial applications. The company's patented light emitting sensor technology enables lightweight scanners that outperform traditional prism-based devices in size, power consumption, portability, and reliability. Identity management solutions providers, government agencies, and corporations around the world rely on Integrated Biometrics' products to enroll and verify individual identity quickly and accurately, even in remote locations.

IB is an multi-national company that is rapidly scaling with high double-digit sales growth, with all the challenges and opportunities that accompany rapid growth.

Our executive offices, including marketing, finance, accounting, domestic logistics and strategic engineering, are based in Spartanburg SC. Our manufacturing and product / process / film engineering offices are outside of Seoul, South Korea. We also have an expanding R&D lab and film production facility in Phoenix AZ. The majority of IB's sales resources work remotely across the globe.

IB has been recognized as one of the South Carolina Top-25 Fastest Growing Companies in 2016 and 2017 and in the Inc. 5000 Fastest Growing Companies for 2016 and 2017.
